

Designed for restricted areas but able to tackle larger open spaces when required, the 75 offers maximum operator comfort and the perfect sweeping results that can be assured with the Dulevo direct-throw system.

Dulevo's filtering system is designed to prevent dust (down to 3 Micron) from escaping into the atmosphere. To meet environmental requirements, this machine is available battery powered and LPG too.

Sweeps any type of debris, from the finest dust to the larger, heavier debris you find around the workplace. The waste hopper, placed immediately in front of the main broom, ensures perfect sweeping results even when the broom is nearing the end of its useful life. Designed to filter even the finest dust (down to 3 Micron), ensures that this is the ideal machine for those industrial environments with a high concentration of fine particles. The Dulevo 75 can be equipped with the GORE® filtering system, which can filter up to PM10.

To simplify maintenance, the machine has been designed with easy access to the power unit and all major components. The waste container, which can be removed laterally, is characterized by its large capacity and easy handling ensured by 4 sliding wheels and a comfortable towing handle.

Technical data		75 EH	75 SH
Sweeping width			
- With main brush	in	27.56 (mm 700)	
- With main brush and Rh side brush	in	37.4 (mm 950)	
- With main brush and side brushes	in	47.24 (mm 1200)	
Hopper capacity	gal	21.13 (Lt. 80)	
Cleaning performance	y ² /h	8,611.13 (m ² /h 7200)	
Maximum speed	mp/h	3.73 (km/h 6)	
Fuel		Battery	Petrol/LPG
Length x width x height	in	57.2 x 35.67 x 50.6 (mm 1453 x 906 x 1285)
