TIMELESS QUALITY THROUGH PASSION

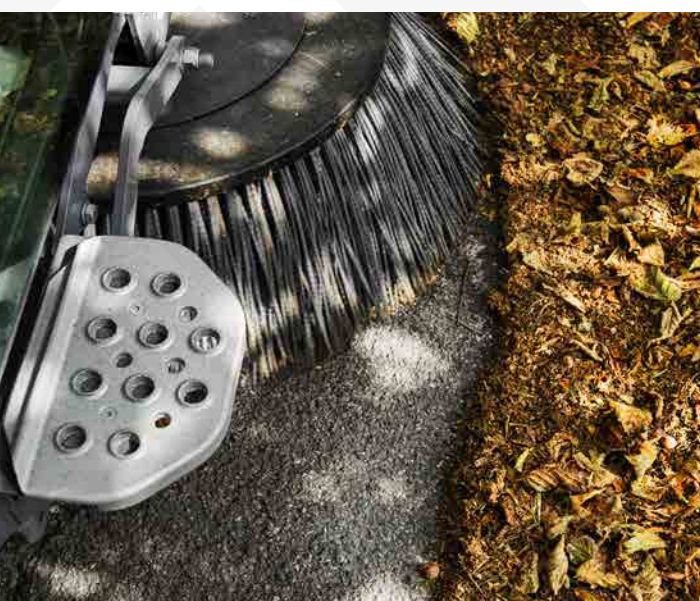

Sweeper compact 100% electric

the D.zero2, with its incredible manoeuvrability and numerous innovative technologies, is the ultimate expression of all-electric sweeping.

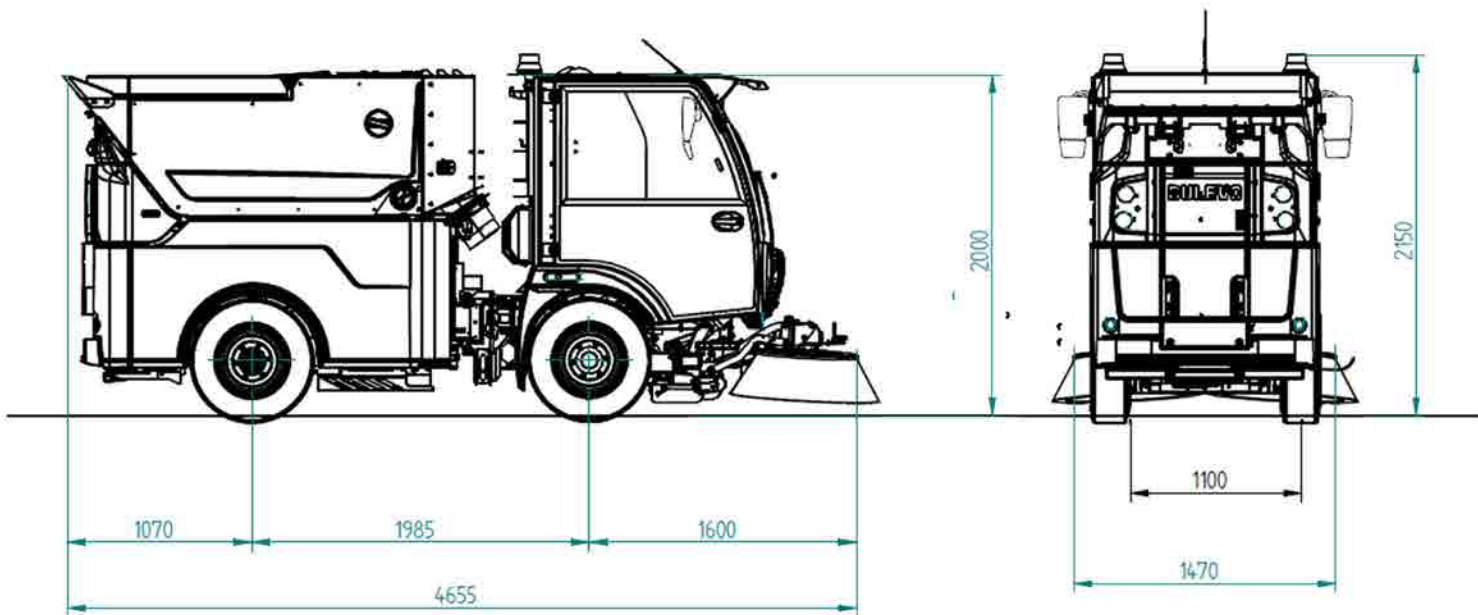

Dulevo performance, low weight.

D.Zero2 is the first 100% electric sweeper by Dulevo: for eight years a leading player in cities all over the world. Today it evolves in the new 3.5-tonne version, even lighter but with the same sweeping performance, safety, comfort and attention to the environment.

The use of lightweight, high-performance materials such as aluminium and polyethylene, assembly using innovative techniques and extreme optimisation guarantee robustness and maximum efficiency, while keeping the total loaded mass within 3,500 kg. With the special oversized tyres (optional), the ground pressure remains below 3 kg/cm², ideal for delicate surfaces that require thorough cleaning without damage.
