Sweeper

The Dulevo 75 is a compact machine, designed for small spaces, but which also allows you to tackle very large surfaces.

Dulevo's filtering system is designed to prevent dust (down to 3 Micron) from escaping into the atmosphere. To meet environmental requirements, this machine is available battery powered and LPG too.

Sweeps any type of debris, from the finest dust to the larger, heavier debris you find around the workplace. The waste hopper, placed immediately in front of the main broom, ensures perfect sweeping results even when the broom is nearing the end of its useful life. Designed to filter even the finest dust (down to 3 Micron), ensures that this is the ideal machine for those industrial environments with a high concentration of fine particles. The Dulevo 75 can be equipped with the GORE® filtering system, which can filter up to PM10.

To simplify maintenance, the machine has been designed with easy access to the power unit and all major components. The waste container, which can be removed laterally, is characterized by its large capacity and easy handling ensured by 4 sliding wheels and a comfortable towing handle.

Technical data		75 EH	75 SH
Sweeping width			
- With main brush	mm	700	
- With main brush and Rh side brush	mm	950	
- With main brush and side brushes	mm	1200	
Hopper capacity	L	80	
Cleaning performance	m <sup>2</sup> /h	7200	
Maximum speed	km/h	6	
Fuel		Battery 24V	Petrol/LPG
Length x width x height	mm	1453 x 906 x 1285
