

## Dulevo International opens in the USA

With DULEVO INTERNATIONAL's new branch recently opened in Doral (Miami, FL) the Italian company marks another significant milestone in its global expansion plans, increasing the brand equity in the Americas.

Dulevo International S.p.a., the Italian company world leader in the manufacturing of sweepers for commercial, industrial, and street cleaning, announces the opening of DULEVO AMERICAS in Miami, Florida. The new subsidiary will allow the company – with headquarters in Fontanellato, Parma (Italy) - to better support the South and North American markets, where Dulevo is already present, by offering a proper, comprehensive service and immediate response to customers.

Over the past five years, Dulevo International has significantly invested in the American market and has considerably strengthened its presence in the United States, earning the trust of consumers and local governments like the cities of Los Angeles, New York, and Denver. With the opening of the Miami office, Dulevo is presently able to provide local assistance for sales and services, with a highly qualified team of experts to guarantee the best customer experience, aligned with the company's philosophy of excellence.

The new location will be operated by General Manager Mario Pepe, with over 30-years' experience as Dulevo International Sales Director, developing longstanding contributions to the growth of the company and worldwide brand's expansion. The Miami office will be the Americas' operational headquarters, overseeing also the Latin American and Canadian markets thanks to its strategic geographic position. This will provide the company significant advantages, such as offering ad hoc services, spare parts inventory, and more efficient logistics.

"We are experiencing one of the most complex periods in recent history - said Tighe Noonan, CEO, and President of Dulevo International S.p.a. - but we are convinced that in times of crisis it is necessary to invest to build the competitive advantages of the future. It is a question of vision, courage, and planning. International expansion has always been part of Dulevo's DNA and the opening of DULEVO AMERICAS INC. represents for us a fundamental strategic step.

### About Dulevo

Present in over 80 countries, with a distribution network of around 150 dealers, Dulevo International is the most global Italian manufacturer of industrial and urban cleaning machinery and it is considered among the most important companies in the industry worldwide. Dulevo design and develop street sweepers for washing and sanitizing purposes, and industrial sweepers for businesses, with constant development and research investments for the enhance of its innovative motorized machines, including alternative energies sources, like the production of 100% electrical vehicles. Since established in 1976, the company headquartered in Parma, has continuously embraced qualitative and technological excellence by offering high productivity machines with the minimum environmental impact, both in terms of CO2 and water consumption, reaching ever-higher levels of dust reduction, with over 99% filter capacity, thanks to the exclusive partnership with Gore filtering systems.
