6000

HYDRO - HYDRO CNG
Street Washer

Wash and sanitise

The Dulevo 6000 Hydro and 6000 Hydro CNG are designed for street cleaning, sanitising and sanitation.

Concept

Designed and built to solve the problem of washing and sanitising in any environment, they are perfectly adapted to any urban or non-urban situation: from the large boulevard to the driveway in the city centre, arcades, pavements, port areas, local markets, etc.

Attention to the environment

Available with the latest generation diesel engine and with a matane gas engine, as part of a faithful respect for the environment and careful care for cities and citizens.

**Efficiency
everywhere**

Washing

Washing is done via a stainless steel bar at the front of the cabin.

Manoeuvrability

The four steering wheels and compact dimensions allow both models to move nimbly in any environment, ensuring perfect cleaning at all times.

Precise work

The operator, from his workstation, can adjust the boom to any position, adapting to different environmental conditions.

Front bar

The front bar, consisting of no less than eleven nozzles for front washing and two for side washing, is located under the driver's cab and is hydraulically adjustable in inclination, incidence and ground clearance.

Tank

Stainless steel tank, fully inspectable.

Cleaning gun

The gun can safely wash walls and less accessible areas even at a distance of 18 metres from the machine.

Designed for people

Comfortable

Comfortable, soundproofed and with large glass surfaces, the cab of these two street-washer models make working under any conditions a pleasure.

Relaxed driving

The hydrostatic steering, power steering, four-wheel steering and few controls make the vehicle easy and pleasant to use.

Controles intuitivos

Con grandes superficies de cristal y controles sencillos e intuitivos.

For every needs of the customer

Configuration

The machine can be configured, according to customer requirements, with high-pressure systems and automatic dosing systems for the sanitising product.

Upper arm

Upper arm to facilitate the use of a washing lance. The arm is very functional in case it is necessary to pass obstacles.

Vertical Washing

A vertical washing bar allows the operator to wash and sanitise walls with precision in combination with floor washing.
